

IMPACTIVA MATERIAL VENDOR MANAGEMENT PROGRAM

FROM DELAYS TO LAWSUITS AND CANCELLED ORDERS, NON-PERFORMING MATERIAL VENDORS CAN PUT YOUR ENTIRE OPERATION AT RISK.

Material problems destroy profits. Restricted substances, physical property failures and waste: all can dramatically reduce margins. With costs continuing to rise each day, optimizing your Tier 1 suppliers' material vendor network is no longer a luxury, it's essential. At Impactiva, we can help. Our technicians will work with you to develop and implement a Material Vendor Management Program that continuously improves quality and efficiency, eliminating costly claims while improving your bottom line.

WHY IS IMPACTIVA DIFFERENT?

THOROUGH, CUSTOMIZED OPTIMIZATION PROGRAM

We take a comprehensive approach to achieving long-term optimization. In addition to working with you to identify your supply chain goals and criteria for choosing the best material vendors, we'll create a list of potential Certified Material Vendors, send surveys to your factories, and perform detailed technical audits of the top ranked material vendors per material type. These in-depth evaluations, which include a review of regulatory compliance, will result in two material vendor recommendations per material type for your Certified Material Vendor list.

VALUABLE INSIGHT FOR CONTINUOUS IMPROVEMENT

Our material vendor certification process will give you insight into the key aspects of each vendor's production processes, production support, management structures, business results, and regulatory compliance. And that's not all. We'll also audit each of your Tier 1 suppliers and conduct supplier team learning seminars, allowing them to target deficiencies and develop improvement programs. This effort, combined with the monitoring and sole use of Certified Material Vendors, will yield a supply chain with lower cost, waste and risk.

UNPARALLELED TECHNICAL AND INDUSTRY KNOWLEDGE

As the world's leading quality assurance company in the footwear and apparel industries, Impactiva brings an unmatched level of technical manufacturing expertise to each material vendor and supplier audit and certification. Our technicians understand your products and the materials and competencies required to manufacture them, allowing them to quickly identify weaknesses that can cause quality problems, delays and long-term damage to your brand.

Impactiva's Material Vendor Management Program ensures that you continually partner with the highest-performing, cost-saving material vendors and suppliers.
